Making Choices

"Destiny is not a matter of chance, it is a matter of CHOICE; it is not a thing to be waited for, it is a thing to be achieved."
William Jennings Bryan (1860 ~1925)

Life is all about choices. We create our life with our thoughts and the choices we make. Each choice leads to a consequence. We create our own possibilities. We are making choices all the time; so we have to learn to be careful and make responsible decisions - since they will be affecting our lives in a negative or positive way. We have to learn to act in a responsible manner if we want our lives to be better and more fulfilling. If we act irresponsibly, we will pay the consequences. We are responsible for what happens to us!

Alexandra Stoddard writes in her book "Making Choices": "You have to be really tough-minded to make choices. The great mystery about choice is that because you will NEVER be able to please everyone, nor even be understood by them, the only hope is for you to feel content about what you decide to do."

So, do what you believe in your heart is the best for you, what you feel confident in doing and what you know is the right thing. Consider other people's feelings and reactions and the consequences that your choices will have, but try to make them understand that your decisions were carefully thought-of and that you will appreciate their support.

Les Brown has also written some great books, including "Live Your Dreams" and "It's Not Over Until You Win". He writes: "Learn from your failures and don't allow them to discourage you. Failure is not final. It is not real unless you make it real. The only reality is how you respond to it, **whether it makes you better or bitter.**"

"Life is a journey ... not a destination." We have the power to make it a wonderful journey if you learn to become a positive person; if we stay focused on our goals and dreams and always believe in ourselves and our potential; if we learn from our mistakes and make the commitment not to make the same mistakes over and over again.

"Life is a journey ... In the end, each of us will be judged by our standard of life, not by our standard of living, by our measure of giving, not by our measure of wealth; and by our simple goodness, not by our seeming greatness."

I conclude with Mary Engelbreit's poem:

*As you travel through life there are always those times
when decisions just have to be made
when the choices are hard and solutions seem scarce
and the rain seems to soak your parade!*

*There are some situations where all you can do
is to simply let go and move on,
gather courage together and choose a direction
that carries you toward a new dawn.*

*So pack up your troubles and take a step forward.
The process of change can be tough.
But think about all the excitement ahead,
if you can be stalwart enough!*

*There could be adventures you never imagined
just waiting around the next bend
and wishes and dreams just about to come true
in ways you can't yet comprehend!*

*Perhaps you'll find friendships that spring from new interests,
as you challenge your status quo
and learn there are so many options in life,
and so many ways you can grow!*

*Perhaps you'll go places you never expected
and see things that you've never seen -
or travel to fabulous, faraway worlds
and wonderful spots in between!*

*Perhaps you'll find warmth, affection and caring,
a "somebody special" - who's there
to help you stay centered and listen with interest
to stories and feelings you share.*

*Perhaps you'll find comfort in knowing your friends
are supportive of all that you do
and believe that whatever decisions you make,
they'll be the right choices for you!*

*So keep putting one foot in front of the other
and taking your life day by day.
There's a brighter tomorrow that's just down the road.*

**Don't
look
back,
you're
not
going
that
way!**

“Wellbeing Day Reflections”**Year 7:**

I extremely enjoyed well being day because of the activities we did: I loved learning about Lorin’s life and how he used resilience and perseverance to get through his troubles. I also enjoyed getting fit in our Drama activities with Year 8. Overall the whole day was a blast!

Charlotte S

I enjoyed hearing about Lorin’s life and his inspirational story. I also enjoyed the dancing competition with year 11, it was great fun. Also I learnt a lot about the brain and its potential.

Hannah

What I like about the wellbeing day was that we played games and we all had fun!! But something that I enjoyed the most was hearing about Lorin’s life, because even though he is blind, it doesn’t mean that you can’t do anything and that you don’t need to give up on things that you enjoy doing, his story was so inspiring that I got teary and he was really good at playing the guitar. But I enjoyed the day!

Paris

I think that Lorin was inspirational. He is living proof that miracles can be achieved, and I wish that I could buy his album. **Lucinda**

I loved wellbeing day, we did lots of activities like learning how to relax, talking about our brains, made up a dance and song about what we had learnt. But the very end of the day was my favourite, we met Lorin and he told us about his life as he was blind and how he learnt to play the guitar. **Josie**

On our wellbeing day this year I really enjoyed the yoghurt, muesli and fruit for morning tea. The blind guitarist was my favourite part of the day, it was very touching and inspiring and a fabulous way to end the day. **Brenna**

I enjoyed well being day because we all heard about Lorin’s life and how he gets around everywhere. I enjoyed the drama activities with Mrs McCulloch. I learnt that the relaxing remedies were great for everyday and it helped me to not get stressed. Thanks for a great day!

Francisca

I really enjoyed hearing about Lorin’s life, hearing him play the guitar really inspired me to achieve my goals. I also truly loved the recess and lunch and would love to have that food more often. **Isabel**

At well being I day I really enjoyed to be able to find a way to relax, for example I liked the closing your eyes and thinking you’re in a place you really love technique which allowed me to think of my sisters! I also enjoyed what we did before lunch when we were split into groups and made songs about what we learnt. I like that because it was the first time the older girls actually listened to what I had to say. **Lexie**

I really enjoyed the well being day because there were so many fun activities and lots to learn. We learnt a lot about the brain and how it works, what kind of things damage it and what kind of things help it to become more creative and active. My favourite thing about the wellbeing day was when Lorin Nicholson came and spoke to us about his life and the struggles and the great things that he faced, his story was very inspiring and very motivating, it was also very enjoyable and fun when he played us a few songs, I loved wellbeing day and I definitely learnt a lot. **Kate**

I really enjoyed doing the Drama Activities, Dancing with the Year 11 students, it was a really good day but overall I loved Lorin’s Inspirational Story about his life, it really inspired me. **Janine**

I found the Wellbeing Day amazing, I loved the Sing/Dance with Year 11 it was fun and the story and life of Lorin Nicolson . Thank you for putting on that amazing day. **Harriet**

I had a great day on Friday celebrating well being day. It was a great experience to spend time with some older girls and to get information about the brain and relationships and so on. It was inspiring to watch and listen to Lorin share his experiences with our school.

Georgia

I found Wellbeing day quite interesting because I had not done something like that before. Even though you thought I was not taking full advantage of our relaxation session I can guarantee that it was something that I have been doing the past few nights. **Grace**

Year 8:

I enjoyed the talk from Lorin about his life and experiences. I found it amazing that he could play the guitar knowing that he only had six percent of sight. **Megan**

I really enjoyed hearing Lorin, the blind guitarist play and speak to us and felt really inspired after he spoke to us about what he has achieved in his life. I also thought the special lunch was really, really good. Thank you Mrs Sole for all the time and effort you put into making wellbeing day fabulous. **Zara**

On wellbeing day I enjoyed hearing about Lorin’s life. I found it very inspirational. It was a relaxed and fun day where I got to spend with all my friends as well as learning many new things. **Hannah**

Year 11:

The day overall was really good but that last session with the blind guitarist was just amazing! I was talking to a lot of the girls in Yr 11 and we all got so emotional and then when he started playing his music we all had the struggle of trying not to cry. That was definitely the main highlight for my day. **Sarah**

I thought Wellbeing day was fine, the last two sessions were the best because Lorin was so inspirational. I would have preferred more speakers like that! I thought that the dancing with the younger girls was a great idea to get to know them better.

Wellbeing day was a good learning experience and was interesting. We learnt about the effects of motivation and being inspired to be a better human and to help others. It was nice to hear the stories of other people and what they have been through. **Anon**

Future Problem Solving Competition

Mrs Donella Tutt

Dear Parents and Students,

Expressions of Interest are being called for participation in the **FUTURE PROBLEM SOLVING COMPETITION**

This year, NEGS and St John's will be offering the Future Problem Solving Competition as an after school activity for Years 5-9. Future Problem Solving (FPS) is an international academic program and competition that brings together students from different countries to think creatively and solve critical issues the world may face in the future.

FPS opens doors to creativity, teamwork, persuasion and presentation and is particularly suited to challenging and answering the needs of high ability students.

The FPS program is designed to stimulate, challenge and teach about thinking. Students learn to think creatively, work cooperatively and come up with solutions to problems the world may face tomorrow.

By promoting thinking and working collaboratively, the FPS program helps build more active students. FPS encourages a better understanding of our world and generates optimism and commitment towards solving our common future problems.

Please take a look at the FPS website for more information **www.fpsp.org.au** and email Mrs Tutt if you are interested in being part of a team at **donella.tutt@negs.nsw.edu.au**
